Art Unit: 3731

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

2. The prior art of record fails to teach or render obvious a stent and balloon catheter combination comprising, among other features, a stent; and a balloon catheter having an outer and inner balloon, wherein the burst pressure of the inner balloon is less than a burst pressure of the outer balloon, wherein the length of the outer balloon is greater than the length of the stent and a length of the inner balloon is less than the length of the stent. This arrangement helps to prevent dog-boning, as indicated by the applicant in the response filed on 10/14/05.

The closest prior art would be US 6,136,011 to Stambaugh. However, Stambaugh fails to teach the inner balloon having a length that is less than the length of the stent and also fails to disclose the inner balloon having a burst pressure that is less than a burst pressure of the outer balloon. There are other references in the cited prior art that teaches a balloon catheter with dual balloons. However, the prior art does not provide any motivation to arrange a stent on a dual balloon catheter as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3731

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Darwin P. Erezo whose telephone number is (571) 272-4695. The examiner can normally be reached on M-F (7:30-4:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anhtuan T. Nguyen can be reached on (571) 272-4963. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
